

Master at Batimat 2015 in Paris, from 2nd to 6th November

About 2,600 exhibitors from all around the world and more than 350,000 visitors are expected at Batimat in Paris, confirmed as one of the most important fairs of construction and architecture in Europe, bringing together the most complete offer in terms of solutions, innovations, related events and training sessions.

The event is scheduled from 2 to 6 November, and Master will participate for the first time with a stand in Hall 6, totally dedicated to the window sector.

"In Paris we will show important solutions such as: WiCloud, the intelligent and concealed window automation; WEEN, the simple, modular and green tilt&turn system. In addition, we will present a preview of "Tuttavista", the minimal system for sliding with a totally hidden frame", is the comment of Engineer Lorenzo Lafronza, Technical Director of Master.

"For this 2015 edition of Batimat, all forecasts confirm that in addition to European operators, sub-Saharan Africa will be one of the possible focus of the event, with growing countries such as Senegal, Ivory Coast, Nigeria, Cameroon and Gabon. Therefore we believe that this may be an ideal occasion to meet new and interesting opportunities" -said Lucio Delfine, Export Manager.

Appointment with Master at Batimat 2015, Paris Nord Villepente from 2 to 6 November 2015, Hall 6 Stand D99.
