23 - 26 Nov
Dubai World Trade Centre

Master at Big 5 Show Dubai, from 23rd to 26th November.

The “**Big 5 Show Dubai**” has reached over the last 10 years a leading position among the international fairs of the building industry in the Middle East. The event, that will take place at the **Dubai World Trade Center from 23rd until 26th November 2015**, according to the organizers’ forecasts will proudly welcome almost **100.000 visitors** among designers, architects, contractors and suppliers of the building industry.

The four days of the event will be full of meetings, focused on technological improvement and product development: these themes will examine in depth other current subjects, such as the energy saving and the environmental sustainability of buildings. It will be also possible to catch in the air some links to the forthcoming **DUBAI EXPO 2015**.

“This is the fifth participation of Master at the exhibition. Our main aim is to empower the business relations with our Middle East partners, as well as to establish new partnerships in this world leading and strategic area of the construction industry”, says one of the Master Export Manager **Albert Ryzhkov**.

Master will introduce its best innovative solutions at Dubai. **WiCloud**, the smart and concealed system of motorized window, now connected with the parallel control unit **WiDouble**, used to control at the same time two actuators. **LINEA ITALIA**, with the handles and cremone bolts inspired to the proudness of Italian design. **WEEN**, the new tilt&turn system with a load capacity of until 160 kg, that contributes to the collection of LEED credits, also showing Master’s commitment making its building projects even more sustainable.

Come and visit us at Hall 7 – Stand G292.
