

Master will be at Big 5 Show Dubai, from 17th to 20th November.

Already this year as well, **Master** reaffirms its presence at Big 5 Show Dubai, one of the most important construction exhibition in the Middle East.

The event, organised in the **Dubai World Trade Center** from next 17th to 20th November, will have more than 70.000 participants as engineers, architects, contractors and construction product and suppliers. It is a four days workshops with important discussions about **technological innovation, energy saving and environmental sustainability of buildings.**

"It is our fourth participation as we want to consolidate the brand's presence in this strategic building construction market" as said **Albert Ryzhkov**, Master Export Manager.

"In Dubai we will show our most important upgraded solutions of year 2014: Wicloud, the intelligent and concealed system for window automation, Empire System, the versatile solution for curtain wall closings and Ween, the new tilt and turn system with load capacity up to 160 Kg contributing to the acquisition of LEED credits to underline our commitment in the field of **environmental sustainability of buildings.**"
