The new program with 110°
concealed hinges

WEEN HIDE 110

La soluzione Invisibile per ogni tipo di apertura

WEEN HIDE 110 è una soluzione unica in grado di soddisfare importanti requisiti di portata, estetica, funzionalità e durabilità.

WEEN HIDE 110 è una soluzione semplice, modulare e green, ideata da Master per sistemi anta ribalta. Ha un design essenziale dotato di cerniere a scomparsa (apertura 110°) ed è adattabile sia per sistemi a battente che per le chiusure ad anta ribalta. WEEN HIDE 110 può essere installato in abbinamento a WiCloud (il primo sistema di motorizzazione invisibile per finestre) consentendo di creare valore su progetti architettonici di pregio, dove tutti gli elementi risultano nascosti e la movimentazione è completamente automatica.

WEEN HIDE 110 è progettato per portate fino a 120 kg con apertura a 110° ed è possibile arrivare fino a 150 kg con l'apposito sostegno. Facile e veloce da assemblare grazie al sistema di montaggio rapido e alla cerniera multi-link che permette la regolazione 3D.

WEEN HIDE 110

The invisible solution for all opening types

WEEN HIDE 110 the unique solution that meets the requirements of maximum load, design, functionality, durability.

WEEN HIDE 110 is the solution for tilt & turn system easy modular and green, with a clear modern design with concealed hinges (110° opening angle) and it is usable for casement and tilt and turn systems. WEEN HIDE 110 can be installed in combination with WiCloud (the first concealed system for window automation) to create value to architectural design projects, where all elements are hidden and handling is fully automatic.

WEEN HIDE 110 is suitable for leaf weights of up to 120 kg 110° opening and is easily upgradable for leaf weights up to 150 kg with the special sash support. It's easy to use thanks the fast assembly system and the multi-joint hinge for an opening angle of 180° that allows the 3D-adjustment.

Perché scegliere WEEN HIDE 110

Why choosing WEEN HIDE 110

► Soluzione invisibile / Invisible Solution

Le cerniere invisibili e la possibilità di essere utilizzate con le motorizzazioni a scomparsa “WiCloud”, permettono al nuovo sistema di essere completamente invisibile garantendo un design elegante ed essenziale.

This design impact without visible hinge and with the possibility to use in combination with “WiCloud”, the concealed system for window automation, allow the new opening system to be completely invisible ensuring an elegant and minimal design.

► Grande versatilità / Great flexibility

Il programma WEEN HIDE 110 può essere utilizzato con profili a battente per realizzare tutti i tipi di apertura: anta ribalta, apertura interna ed esterna, apertura vasistas.

WEEN 110 program can be used for all opening types used with casement profiles: tilt and turn opening, Inside/Outside side opening, bottom hung opening.

► Prestazioni / Performance

Il nuovo programma è testato per portate fino a 120 kg con apertura a 110°. È possibile arrivare fino a 150 kg. La cerniera multi-link con angolo di apertura a 110° permette anche la regolazione 3D.

The new program is suitable for leaf weights of up to 120 kg 110° opening. It is easily upgradable for leaf weights up to 150 kg with the special sash support. This unique multi-joint hinge for an opening angle of 110° also allows for 3D-adjustment.

► Semplice da installare / Easy mounting

Per garantire un assemblaggio semplice e veloce, la cerniera superiore con braccio è composta da due elementi indipendenti: uno sul telaio e l'altro sull'anta battente. Ogni parte è saldamente fissata al profilo affinché l'assemblaggio sia veloce ed intuitivo, infatti basta agganciare anta e telaio facendo scattare l'apposito perno.

L'innovativo sistema di fissaggio della cerniera inferiore sull'anta riduce il carico sulla leva della cerniera. Questa cerniera può essere montata in cantiere o in officina come un comune meccanismo ad anta ribalta.

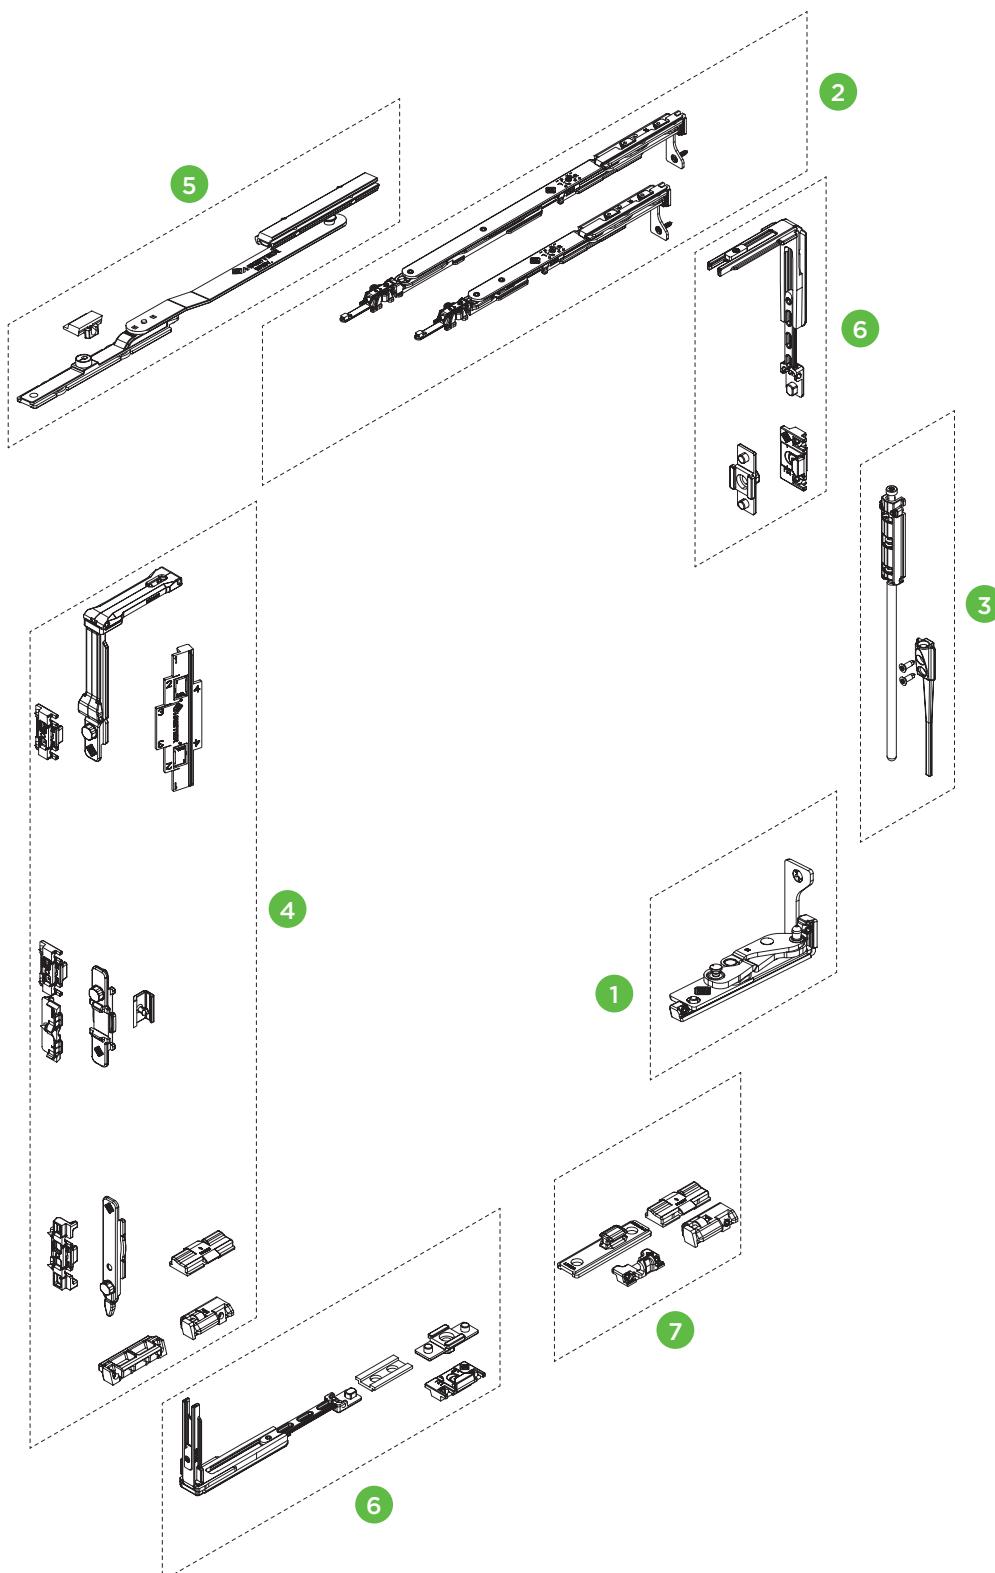

For an easy and fast assembly the top hinge/arm is composed of two independent part, frame and sash, each part is firmly attached to the profile and the two part assembly easy, simply click the frame and sash pin.

Innovative sash fitting of the lower hinge reduce the load on the hinge leverage. The hinge can be mounted on the job site or in the manufacturing facility as simply as a standard tilt and turn.
